

# Program Information

# REGISTERED NURSE TO BACHELOR OF SCIENCE IN NURSING

Kansas City, MO

## Program Overview

The RN – BSN program is a degree completion program delivered completely through distance education. Applicants wishing to enroll in the must possess an Associate Degree in Nursing from a state Board of Nursing-approved program and an active, unencumbered Registered Nurse (RN) license. Enrolled students will receive block transfer credit of 60 semester credit hours and complete an additional 60 semester credit hours in the program.

## Program Objectives

1. Utilize critical thinking to synthesize knowledge derived from natural and behavioral sciences, humanities, and the art and science of professional nursing.
2. Apply the nursing process to develop safe, compassionate and competent nursing care to patients and families from diverse backgrounds across the lifespan in a variety of healthcare settings.
3. Utilizing acquired knowledge, skills, and attitudes into nursing practice incorporating ethical and legal principles to promote collaborative practice within an interdisciplinary healthcare team.
4. Integrate theories of nursing care and evidence based practice when planning care and making clinical judgements appropriate for diverse populations and communities.
5. Demonstrate accountability as an independent leader using concepts of leadership, inspiring life-long learning and teamwork in healthcare.
