

Program Information

MEDICAL ASSISTANT

Dallas, TX

Program Overview

Whether in a physician's office, a clinic, or hospital-owned physician network, the Medical Assistant performs many services on the physician's behalf. These may include admissions work, preparing the patient for examination or treatment, operating diagnostic equipment, and performing diagnostic procedures. The Medical Assistant is also responsible for the patient's medical records and insurance forms as well as for scheduling appointments and maintaining medical records for the physician.

Program Objectives

Upon completion of the Medical Assistant program, the student will possess the knowledge and skills required in the areas of anatomy, physiology, pathology of the body systems, medical terminology, EKGs, administration of parenteral medications, phlebotomy techniques, CLIA exempt laboratory procedures, and medical front office procedures to function successfully in an entry-level position as a Medical Assistant. Graduates are prepared to enter the healthcare workforce in a clinic or physician's office. A diploma will be issued upon successful completion of the program.
