

Program Information

PRACTICAL NURSING

Kansas City, MO

Program Overview

As a vital member of the healthcare team, the Practical Nurse combines nursing skill with human understanding to care for both chronically and acutely ill patients in a variety of settings.

Program Objectives

The objective is to prepare students with sufficient theoretical knowledge and specialized practical skills to qualify for an entry-level position as a member of the nursing staff in an acute-care hospital, extended-care facility, physician's office, or other healthcare agency. Upon completion, graduates will be able to sit for the National Council Licensure Examination—Practical Nurse (NCLEX-PN). Students in the Practical Nursing program should be aware that the Missouri State Board of Nursing may refuse to issue a license to any person who has been found guilty of violating federal or state laws and for any of the 16 causes listed in Section 335.066 of the Missouri Revised Statutes 1986. (Copies of this law are available from the Director of Admissions or the Missouri State Board of Nursing.)

Registration and certification requirements for taking and passing these examinations are not controlled by Concorde, but by outside agencies, and are subject to change by the agency without notice. Therefore, Concorde cannot guarantee that graduates will be eligible to take these exams, at all or at any specific time, regardless of their eligibility status upon enrollment.
