

Program Information

NURSING

Miramar, FL

Program Overview

The Nursing program prepares students for entry-level, Registered Nurse positions. Successful completion of the Nursing program leads to the award of an Associate in Science degree and permits the graduate to apply to take the National Council Licensure Examination for Registered Nurses® (NCLEX-RN) and to the State Board of Nursing for licensure. Licensure may be denied by the Board of Nursing for reasons that include, but are not limited to, fraud/deceit in making application, felony or misdemeanor convictions, issues with drugs or alcohol, or charges pending in any state.

* These courses are offered online.

** Transfer Credit Option for LPN/LVN Applicants

An applicant who has passed the NCLEX-PN exam, holds an active, unrestricted Practical or Vocational Nursing license, and who graduated from their PN/VN program less than two years prior to the anticipated start date of the Nursing program, may be eligible for transfer credit. This transfer credit can shorten a student's anticipated time to graduation by up to ten weeks. During the enrollment process, the applicant must successfully complete a nursing skills assessment as well as a Foundations Specialty exam with a score of 850 or better on the first attempt. Upon successful achievement of both, the student will be scheduled for the "NRS1030 Practical to Professional Nursing Transition" course. Upon passing NRS1030, the student will be awarded transfer credit for: NRS1730 and NRS1640.

*** These courses include instruction on HIV/AIDS training to include an introduction, drugs and patient care.

For course descriptions, a breakdown of credit hours and other program-specific information, please review the Campus Catalog on concorde.edu. To learn about our graduation rates, the median debt of students who completed programs, and other important information, visit concorde.edu/disclosures.
